

Where Did the Fireflies Go?

Free firefly resources to help you find, observe, and protect the lights around you.

- ◆ Turn off the lights.
- ◆ Leave the leaves.
- ◆ Look at the right time.

FindTheFireflies.org

About the Project

I Don't See Fireflies Anymore is a growing public education project designed to help families, homeschoolers, gardeners, educators, and nature lovers better understand the fireflies around them.

FindTheFireflies.org offers a growing collection of beginner-friendly firefly resources, including:

- ◆ where and when to look for fireflies
- ◆ how to observe them responsibly
- ◆ simple ways to make yards and gardens more firefly-friendly
- ◆ firefly habitat, behavior, and seasonal activity
- ◆ free guides, presentations, and future educational resources as the project grows

The project grew out of several years of independent firefly field observation in Southeast Louisiana, with a particular focus on the elusive females of *Photuris frontalis*.

**Free resources. Practical guidance.
A reason to start looking again.**
